

VAIBHAV KARADE

DevOps Engineer

PROFESSIONAL SUMMARY

A highly skilled and results-driven DevOps professional with over 5.5 years of experience working across leading companies like Capgemini, TCS, and EPAM Systems. I specialize in cloud platforms, CI/CD automation, and data operations. Proven expertise in leveraging tools like Jenkins, Docker, Kubernetes, Terraform, and Azure DevOps to streamline workflows and enhance system performance. Certified in Microsoft Azure (AZ-900, AZ-104, AZ-400) with strong problem-solving skills and a passion for optimizing cloud infrastructures.

WORK HISTORY

Cloud DevOps Engineer, 11/2023 to Current EPAM Systems - Bengaluru, India (Remote)

- Developed and optimized CI/CD pipelines for cloud-native applications using **Azure DevOps**, **GitHub Actions**, **Jenkins**, and **GitLab** to enable automated deployments across environments.
- Implemented **Docker** and **Kubernetes** to containerize applications, ensuring consistent environments across development, testing, and production.
- Supported data integration and processing workflows with **Azure Data Factory** and **Azure Logic Apps**.
- Integrated **Prometheus**, **Grafana**, and **ELK** for real-time application monitoring, logging, and troubleshooting.
- Ensured secure and compliant cloud infrastructure, handling services like **Azure Data Factory**, **Azure Databricks**, and **SQL Server** for data operations.
- Integrated **SonarQube** for code quality checks, automating security scanning with **Trivy** and **Nexus**.
- Implemented automations like Removing disabled users from security group, Work items state Transition to improve the lead and cycle time in Azure DevOps, **PAT token rotation** of Azure Databricks, Secret Rotation of Service principal in Microsoft Azure.
- Backup configuration, CI-CD setup, Alerts setup for Azure analysis services.

DevOps Engineer, 08/2022 to 11/2023 Tata Consultancy Services - Pune, India (Remote)

- Built and maintained CI/CD pipelines for seamless delivery using **Azure DevOps**, **GitHub**, and **Jenkins**.
- Automated infrastructure deployment and configuration using **Terraform** and **Ansible**.
- Implemented container orchestration with **Docker Swarm**, **Kubernetes**, and **Rancher**, enhancing microservices deployment and scaling.
- Managed infrastructure and configurations using **Terraform** and **Ansible** for scalable and maintainable solutions.
- Deployed and maintained **Prometheus** and **Grafana** for monitoring, alerting, and visualizing metrics to ensure high availability and performance.

SKILLS

GitHub

CI-CD Pipelines

Azure DevOps

Docker & Kubernetes

Ansible & Terraform

Monitoring

DataOps

Bash

Azure & AWS

Helm

Kyverno

GitOps

SonarQube & Nexus

Velero, Rancher, Cast AI, Karpenter

Software Engineer, 08/2019 to 07/2022

Capgemini Technology Services - Bengaluru, India (Remote)

- I worked on Hyper V environment in Capgemini for couple of months and moved to Azure Cloud and learned DevOps tools like IAC, Configuration management, Azure DevOps etc. Managing the permissions of Azure DevOps Project for Users.
 - Supported cloud infrastructure provisioning using **Terraform**, enabling infrastructure automation for large-scale applications.
 - Experience on Web apps, Deployment slots on Web App, Azure Load balancer, Application gateway, Azure Firewall, identity and access management, Azure policy, Azure Monitor, Azure Backup and Azure update management.
 - Worked closely with development teams to implement and maintain automated testing and deployment strategies.
 - Collaborated with clients to enhance automated testing frameworks within CI/CD environments using Azure tools; established streamlined workflows that led to a decrease in code errors by an impressive factor of three.
 - Knowledge of Azure CLI and Azure PowerShell to manage the Azure resources
-

EDUCATION

**Bachelor of Engineering, Electronics and Communication Engineering,
08/2014 to 09/2018**

KLS VJIT - Dharwad, India

CERTIFICATIONS

AZ-900 (Azure Fundamentals)

AZ-104 (Azure Administrator)

AZ-400 (Azure DevOps Expert)
